

# LP OSB Plant

## PROJECT OVERVIEW

---

### LOCATION

Thomasville, AL

### TOTAL INSTALLED COST

\$248 Million

## TEAM

---

### PROGRAM MANAGER

Larry Persinger

### PROJECT COORDINATION

Lynn Persinger

## PROJECT DETAILS

Construction management services were provided for the construction of Louisiana Pacific's new OSB plant. The project was a green field project and included all site infrastructure, civil works, buildings, and equipment installation for a new \$248 million oriented strand board plant. A significant project component was the installation of a biomass boiler that serviced the facility.
