

TIMET Rolling Line Installation

PROJECT OVERVIEW

LOCATION

Toronto, OH

TOTAL INSTALLED COST

\$20 Million

TEAM

PROJECT EXECUTIVE

Larry Persinger

PROJECT ACCOUNTING / DOCUMENT CONTROL

Lynn Persinger

PROJECT DETAILS

Construction Management services were provided for the installation of a new titanium sheet rolling line at TIMET's Toronto, OH facility. Our key personnel managed the procurement of equipment and the selection of trade contractors. We provided cost management, document control, schedule management, and on-site construction management services to deliver a successful project within this operating plant.

SERVICES PROVIDED

- Construction Management
- Procurement
- Cost Control

CLIENT COMMENTS

This team "...delivered a great project to TIMET that was ahead of schedule, well within budget, efficiently started operation, and produces a quality product for our customers." – Matt Gladowski, Sr. Project Engineer, TIMET No. 2 CA Line
